Heat alert!

Reminder As the weather heats up there will be more pedestrians and cyclists, please watch out for your fellow neighbors.

Please visit [Community Service Center Locations](#) to find cooling centers.

The Office of Emergency Management and Communications (OEMC) has issued a [notice](#) about the climbing temperatures over the next few days. Please remember a few key things:

1. Check on your neighbors, especially seniors as they are the people in greatest danger in extreme heat and humidity.
2. Drink plenty of water!
3. Avoid going out in the heat during the hottest part of the day.
4. Wear light, loose fitting clothing and wear a hat to protect your head and face.
5. Remember that all Chicago police district headquarters, libraries, and public buildings can be used as temporary cooling centers.

For more helpful hints, please review the notice from OEMC by clicking [here](#).

If you're interested in receiving alerts and notices such as these directly from OEMC via text, please take a few minutes to sign up at www.AlertChicago.com.

And remember, if you need any assistance, please call or email my office.

My #1 Concern

Public safety is my number one concern. As a former prosecutor, I know that we must make our streets and homes as safe as possible. I have met our new police chief Gary McCarthy, and am impressed with his intensity and commitment.

I met with our local police commanders immediately after taking office and stressed my concerns for the summer months, and am happy that the Memorial Day weekend ended without major incident even in the face of a heat emergency that required closing the beach early.

Having said that, I believe we need additional personnel to guard the beach and surrounding area to monitor alcohol possession and the overall safety of our community. I will continue to work on this issue.

Used Electronics Drive at Alcott Elementary School June 10th!

Help the earth and a school while freeing up space in your home and office! Please bring any and all electronics you aren't using to Alcott Elementary School's playground at 2625 N. Orchard St. on June 10th between 7:30am-noon. Recycle Tech Solutions will refurbish and sell

items and provide a portion of the proceeds to Alcott for environmental education and initiatives. Items that cannot be refurbished will be recycled or disposed of in an eco-friendly manner. Please direct questions to Elaine at elainerietz@sbcglobal.net

Sincerely,

Michele Smith
43rd Ward Alderman
